RE: SCRDI Bluff Road Site - Record of Decision ,

Dear Mr. Tidwell:

The Department has reviewed the revised Record of Decision (ROD) dated August 16, 1990 for the SCRDI Bluff Road site and concurs with the ROD. In concurring with this ROD, the South Carolina Department of Health and Environmental Control (SCDHEC) does not waive any right or authority it may have under South Carolina State law. SCDHEC reserves any right and authority it may have to require corrective action in accordance with the South Carolina Hazardous Waste Management Act and the South Carolina Pollution Control Act. These rights include, but are not limited to, the right to ensure that all necessary permits are obtained, all clean-up goals and criteria are met, and to take a separate action in the event clean-up goals and criteria are not met. Nothing in the concurrence shall preclude SCDHEC from exercising any administrative, legal and equitable remedies available to require additional response actions in the event that: (1)(a) previously unknown or undetected conditions arise at the site, or (b) SCDHEC receives additional information not previously available concerning the premises upon which SCDHEC relied in concurring with the selected remedial alternative; and (2) the implementation of the remedial alternative selected in the ROD is no longer protective of public health and the environment.

This concurrence is contingent upon the State's above-mentioned reservation of rights. The review of the report on the pilot and bench studies for soil vacuum extraction indicates that this is an acceptable method of soil remediation at the site. The State also concurs with the selected groundwater remediation alternative of extraction and on-site treatment by air-stripping

followed by a granular activated carbon system. State concurrence on these alternatives is based on data from the full scale operation of the vacuum extraction system being consistent with that of the pilot and bench studies, and both alternatives meeting all applicable clean-up criteria.

Sincerely,

R. Lewis Shaw, P.E.  
Deputy Commissioner  
Environmental Quality Control
